Eric-

Please forward the complete [REDACTED] April 17th Dupont package to the consultant identified by Anjali Lamba. The package should be tracked and treated as TSCA CBI. Contained in that package is the consent for this activity by DuPont. I will pick up a copy of that consent in the next 15 minutes.

If you could confirm when the package is actually sent to the consultant that will be very helpful.

Many thanks for your continued assistance.

Scott,

If you would like to send this CBI material to the consultant and feel it's fine to do so without a notarized consent, you can pick up the documents at the CBIC. We can supply you with the envelopes and green card tracking materials.

I can send you the consent. It is not notarized.

Hi Scott,

Could you please send a copy of the notarized consent for our files? We need this just to have CBI sent to the originating submitter. I'm assuming we would need it to have it sent to someone the original submitter requests we send it to. Seems like it might actually make more sense for us to send it to the submitter with their notarized request and from there, they can handle it in the manner they wish.

Eric

Eric---

Please thank Carmalita for raising this issue-we appreciate her vigilance. DuPont has consented to this transfer. Do you need a copy of the consent?

**Importance:** High

Scott,

I received a call from CBIC (contractor named Carmalita) about some concern they have about the materials going out to an outside contractor (he does not represent a submitter company, which is where they send out the CBI information normally).

Heads up that you might receive a call from her manager Eric Brewer about this.

FYI..I dropped off the CBI materials and cover letter at CBIC this morning. Per his e-mail, the consultant is out of town 4/15 to 4/26. He should receive the materials by certified mail early next week.
